FOR IMMEDIATE RELEASE

### **HVP High Voltage Products GmbH Joins the Dean Technology Sales Team**

**(Farmingdale, New Jersey January 10, 2006)** Dean Technology, a world leader in the manufacture and sales of high voltage components, announces today the addition of HVP High Voltage Products GmbH as its new international representative/distributor in Germany. HVP High Voltage Products GmbH is a newly formed company as a partnership between Dean Technology, UltraVolt Inc., and the experienced, high voltage sales force in Germany.

“The expansion to our international sales team by the addition of HVP High Voltage Products GmbH brings a very experienced, knowledgeable company to advance the promotion of our high voltage and surge protection products in central Europe,” said Craig Dean, President of Dean Technology. “HVP will provide inventory of our high voltage components to support its focus within the high voltage market”.

#### About Dean Technology

Dean Technology is a world leader in the manufacture and sales of high voltage components including high voltage diodes and rectifier assemblies (HV Component Associates), surge suppression products, MOVs, silicon carbide and selenium surge suppressors (CKE), and customer high voltage power supplies, AC/DC and DC/DC (HV Power Solutions, Inc.). An international manufacturer with factories in China (Anshan, Liaoning), Dean Technology manufactures its high voltage diodes utilizing aluminum in the assembly of the diode stack thus greatly reducing the use of lead solder in this operation. Dean Technology employs over 250 people worldwide with headquarters in Farmingdale, New Jersey.
