## FOR IMMEDIATE RELEASE

## Dean Technology Certified to ISO 9001:2015

**June 27, 2017 – Addison, TX** - Dean Technology, Inc., today announced that it has achieved ISO 9001:2015 certification. Achievement of this certification shows DTI's commitment to customer satisfaction, high quality, and continuous improvement.

ISO 9001 is a quality management system standard that was developed by the International Organization for Standardization, an association of governmental and nongovernmental organizations from many countries. The ISO 9001 standard is utilized to certify quality management systems that focus on continuous improvement, customer satisfaction and the active involvement of both management and employees in a process based approach.

"I could not be happier with the performance everyone at DTI has shown throughout the process of achieving ISO 9001:2015 certification," said Craig Dean, CEO of Dean Technology, Inc. "Beyond the hard work, and time required to become certified, this accomplishment shows just how much each employee here cares about the quality of what we do. We will continue to do everything we can to provide the best products and service to all of our customers into the future!"

Dean Technology was certified to the ISO 9001:2015 standard by Performance Review Institute Registrar (www.priregistrar.org) a not for profit, SAE International affiliate, organization. They are uniquely motivated with a mission and commitment to raise the bar in any industry they serve, and acted as a dedicated partner to DTI. The Certificate of Registration from PRI is available on the Dean Technology website at: www.deantechnology.com/resources/more.

## About Dean Technology, Inc.

Dean Technology, Inc. (www.deantechnology.com) specializes in the manufacture, distribution and support of high voltage components, assemblies and power supplies. Its three main product lines include HV Component Associates (HVCA), CKE, and High Voltage Power Solutions (HVPSI). The HVCA line of products centers on high voltage diodes, rectifiers, bridge rectifiers, ceramic disk capacitors, and custom assemblies for specific applications. CKE products are a leading line of high voltage and high power silicon rectifiers, MOVs, selenium suppressors, silicon carbide varistors, as well as custom assemblies. The HVPSI product line includes high voltage power supplies, multipliers and test equipment. Dean Technology's full

family of products provides complete coverage of high voltage and high current solutions for any application. For sales and technical information Dean Technology can be reached at +1.972.248.7691.
